EXTENSION OF TERM

NOTE: "Extension of Time in Patent Cases (Supplement Amendments) – If a timely and complete response has been filed after a Non-Final Office Action, an extension of time is not required to permit filing and/or entry of an additional amendment after expiration of the shortened statutory period.

If a timely response has been filed after a Final Office Action, an extension of time is required to permit filing and/or entry of a Notice of Appeal or filing and/or entry of an additional amendment after expiration of the shortened statutory period unless the timely-filed response placed the application in condition for allowance. Of course, if a Notice of Appeal has been filed within the shortened statutory period, the period has ceased to run." Notice of December 10, 1985 (1061 O.G. 34-35).

NOTE: See 37 CFR 1.645 for extensions of time in interference proceedings, and 37 CFR 1.550(c) for extensions of time in reexamination proceedings.

NOTE: 37 C.F.R. § 1.740(b) "...an applicant shall be deemed to have failed to engage in reasonable efforts to conclude processing or examination of an application for the cumulative total of any periods of time in excess of three months that are taken to reply to any notice or action by the Office making any rejection, objection, argument, or other request, measuring such three-month period from the date the notice or action was mailed or given to the applicant, in which case the period of adjustment set forth in § 1.703 shall be reduced by the number of days, if any, beginning on the date after the date that is three months after the date of mailing or transmission of the Office communication notifying the applicant of the rejection, objection, argument, or other request and ending on the date the reply was filed. The period, or shortened statutory period, for reply that is set in the Office action or notice has not effect on the three-month period set forth in this paragraph."

Dear Mr. Tarolli:

Thank you for your letter of December 7, 2004.

In compliance with your request, I have carefully studied Japanese Published Patent Application JP 10-167003 A (hereinafter referred to as "document in question").

Before stating the result of the study, I would like to confirm that I have been working as a Japanese patent attorney and have dealt with a significant number of Japanese documents for more than 30 years, and that I am fluent in Japanese.

Mr. Thomas L. Tarolli

After studying the document in question, I have ascertained that the document in question fails to provide a specific teaching that the spool 20 and the gear 203 are integrally formed as a one-piece structure and are not separate structures secured together.

I trust that this letter will answer your question. However, please feel free to contact me if you need further information.

Our debit note for the time spent studying the document in question will be sent directly to TRW Automotive.

Yours very truly,
